WORK EXPERIENCE **Red Hat, Inc.** Lowell, MA
Senior Software Engineer (OpenShift AI Dashboard) Dec 2023 - Present

- Leading a team of 7 (one of 5 UI scrum teams) for [Red Hat OpenShift AI](#), an open source data science and AI experimentation platform used worldwide by large corporations.
- Maintaining the upstream UI for [Kubeflow Model Registry](#). Kubeflow is a CNCF project adopted by AWS, AT&T, VMware, Pepsico and others (kubeflow.org).
- Architected new modular UIs for Model Registry, Model Catalog, and Distributed Workloads in OpenShift AI using React, Webpack Federated Modules and Golang/Gin.
- Built an internal dashboard to combine status and history data across Jira, GitHub and Slack using Claude and spec-kit. Streamlines code review and knowledge sharing.
- Mentored interns and junior developers and developed team onboarding resources.

Senior Software Engineer (UXD) Sep 2020 - Dec 2023

Software Engineer (UXD) Nov 2017 - Sep 2020

- Maintained React components and documentation for PatternFly (patternfly.org), the design system used across all Red Hat products.
- Created and led the UI for [Migration Toolkit for Virtualization](#) using React Query and Node.js. Used by large customers to migrate from VMWare and escape vendor lock-in.
- Maintained multiple other open source migration and modernization UIs for konveyor.io productized as [Migration Toolkit for Containers](#) and [Migration Toolkit for Applications](#).

Hewlett Packard Enterprise Andover, MA

Software Engineer, InfoSight (On-Prem Storage Appliance Analytics) Feb 2015 - Nov 2017

- Built and maintained full-stack features for HPE InfoSight (now branded [HPE AIOps](#)) using JavaScript (jQuery and React), Scala, Play, Akka and Elasticsearch.
- Participated in combining two large UIs upon HPE's acquisition of Nimble Storage.

Amazon.com, Inc. Cambridge, MA

SDE Intern, AWS Storage Gateway (aws.amazon.com/storagegateway) Jun - Aug 2014

- Created an internal website for Gateway support using Ruby on Rails and jQuery.
- Enhanced customer-facing diagnostic and logging tools using Java and Bash.
