<i>Servers/Frameworks</i>	Node.js, Express, Gin, Nginx, Play Framework, Rails, Wordpress
<i>Database Tools</i>	MySQL, SQLite, Postgres, MongoDB, Elasticsearch, GraphQL
<i>Infrastructure Tools</i>	Kubernetes, Ansible, Vercel, Amazon EC2/S3, Jenkins

WORK EXPERIENCE **Red Hat, Inc.** Lowell, MA
Senior Software Engineer, OpenShift AI Dashboard Dec 2023 - Present

- Leading a team of 7 (one of 5 UI scrum teams) for [Red Hat OpenShift AI](#), an open source data science and AI experimentation platform used worldwide by large corporations.
- Architected a UI featured in the keynote at Red Hat Summit 2025 (Model Catalog).
- Core maintainer (37 merged PRs, 110 reviewed PRs) of the upstream UI for [Kubeflow Model Registry](#), a Cloud-Native Computing Foundation (CNCF) project ([kubeflow.org](#)).
- 157 merged PRs, 471 reviewed PRs across the RHOAI upstream open source projects.
- Coordinating across PM, UX, backend and management to deliver high-impact features end-to-end from RFE refinement through design review, development, testing, signoff and GA release.
- Mentored interns and junior developers and wrote team onboarding resources.

Senior Software Engineer, User Experience Design (UXD) Sep 2020 - Dec 2023

Software Engineer, User Experience Design (UXD) Nov 2017 - Sep 2020

- Created and led the UI for [Migration Toolkit for Virtualization](#) (MTV), which helped increase Red Hat OpenShift Virtualization adoption by over 250% in 2024-25.
- An MTV customer story (SiriusXM) was featured in the keynote of Red Hat Summit 2024. 7 customer success stories were [detailed on the Red Hat Blog](#) in May 2025.
- Maintained multiple other open source migration and modernization UIs for [konveyor.io](#) productized as [Migration Toolkit for Containers](#) and [Migration Toolkit for Applications](#).
- Maintained React components and documentation for PatternFly ([patternfly.org](#)), the design system used across all Red Hat products with a focus on accessibility.

Hewlett Packard Enterprise Andover, MA

Software Engineer, InfoSight (On-Prem Storage Appliance Analytics) Feb 2015 - Nov 2017

- Built and maintained full-stack features for HPE InfoSight (now branded [HPE AIOps](#)) using JavaScript (jQuery and React), Scala, Play, Akka and Elasticsearch.
- Participated in combining two large UIs upon HPE's acquisition of Nimble Storage.

Amazon.com, Inc. Cambridge, MA

SDE Intern, AWS Storage Gateway (aws.amazon.com/storagegateway) Jun - Aug 2014

- Created an internal website for Gateway support using Ruby on Rails and jQuery.
- Enhanced customer-facing diagnostic and logging tools using Java and Bash.

EDUCATION *Bachelor of Science, Computer Science* Feb 2015
University of Massachusetts Amherst Amherst, MA
Dean's List Student – Member: UMass ACM, CS Recruiting and Outreach Committee
